

Why Us?

- **A 30-year history developing close working relationships with multiple suppliers**
- **Inherent focus on people**
- **Provide clients with an end to end solution with quality products at a fair price**
- **Carefully assess our supplier network through a stringent quality assurance framework**
- **Strong network of industry experts ranging from medical professionals through to consulting specialists**

Due to these unprecedented times, companies require support not only in their day to day business but also for the betterment of the health & safety of their people.

Ram Peripherals provides a comprehensive PPE solution to supply quality PPE products and adapt company working environments to follow new safety guidelines.
